

**Smith:** welcome back to our next episode of what's up prof, hello again Walter

**Walter:** We meet again

**Smith:** Yes and we can continue discussing of all the interesting things that's happening in the world but before we begin I'll open with a word of prayer:

Our Heavenly Father thank you very much for bringing us back together we ask that you enlighten our minds, have the Holy Spirit help us and also bless the discussion in Jesus name amen.....

**Walter:** Amen, We were discussing north versus south and we got to a certain point and now we have to continue with our discussion.

## THE GREAT RESET

We want to get to the story of **the great reset**. Remember there was a thesis, antithesis and a synthesis. So, somehow there must be a reset so that you can have a synthesis. You must have the two opposing ideologies coming to a synthesis and then the final events.

## The time of the end

**Dan 11:40** And at the time of the end shall the king of the south push at him: and the king of the north shall come against him like a whirlwind, with chariots, and with horsemen, and with many ships; and he shall enter into the countries, and shall overflow and pass over.

**Dan 11:41** He shall enter also into the glorious land, and many countries shall be overthrown: but these shall escape out of his hand, even Edom, and Moab, and the chief of the children of Ammon.

The verses that we discussed were Daniel chapter 11 and we'll just repeat them here for the sake of introduction.

“And at the time of the end the king of the south shall push against the king of the north and the king of the north shall come against him like a whirlwind, with chariots and with horsemen and with many ships and he shall enter into the countries, and shall overflow and pass over.”

Now we discussed the chariots and the whirlwind and the horsemen which was war, preparation for war, rumors of war. we did that in the last episode and the economy of course will also be in the mix here and already we have trade wars between china and the united states king of the north king of the south and he the king of the north shall enter into the glorious land we discussed how it will even infiltrate God's people and try to change the direction but God is in control and He will sort that out.

We also discussed whether this is a conspiracy theory and we decided no if you use the Biblical filters then you are not discussing at the conspiracy theory you are discussing the unfolding of Prophetic Events.

So, Noah was a conspiracy theorist and then it started to rain. Jeremiah was a conspiracy theorist and then the king of the north attacked Jerusalem. So, we can expect as Jeremiah by the way Jeremiah was a type of the Three Angels Messages. One of his great warnings was we should return to God's Commandments. We should worship God according to His dictates and flee from the king of the north. Come out of her my people, that message was all part and parcel of the book of Jeremiah. So, Jeremiah preached that the king of the north was coming and he was considered a conspiracy theorist and his own church put him in stocks. His own church put him into the system but he had this faithful scribe baruch and he gave him a dvd. Yes he said go to the king and go and give him the dvd and the king tore it up.

**Martin:** Threw it out of the window.

**Walter:** So he made another five lectures on it and increased it and sent him some more dvds. I think it was called turtle onslaught, at that stage yes and said go look at that and they weren't very happy. They called him a conspiracy theorist. So, we can expect the same but irrespective of that. Let's be biblical conspiracy theorists and not coincidence apologists because we need to go down that road. So where are we going in terms of the synthesis.

**Martin:** Yes, because now in the previous episode you've seen clearly the king of the north south situation with the wars.

Walter: Yes

**Martin:** The rumors of wars that's starting now

**Walter:** The synthesis too has two sides you have the king of the south's view of a world after all of these events and you have a king of the north view as to what the world will look like

after all of these events. So, somewhere there must be some form of compromise but because they're sitting as we saw in the last one at one table. There must be a plan that is not immediately apparent.

Let's have a look at some of these things now. When you're talking about the United Nations. The United Nations is a very interesting body. It has a very sharp and stock religious component and uh, they have the temple of understanding and they have the philosophy of alicia bailey which is lucifer trust, lucius trust. They later called it which is luciferian doctrine which is uh very very strongly incorporated in the united nations thinking but then you also have this, this secularism this king of the south aspect.

**B BREITBART** by SIMON KENT | 26 Jun 2020

### U.N. Chief Guterres Calls for One Supreme Body of 'Global Governance'

As the world body on Friday [commemorates](#) the 75th anniversary of the adoption of the U.N. Charter, the founding instrument of the globalist organisation, Guterres said there is a need to "re-imagine the way nations cooperate."

"We need a networked multilateralism, bringing together the U.N. system, regional organisations, international financial institutions and others. And we need an inclusive multilateralism, drawing on the indispensable contributions of civil society, business, cities, regions and, in particular, with greater weight given to the voices of youth," Guterres said at a virtual press conference Thursday.

"The problem is that today's multilateralism lacks scale, ambition and teeth. And some of the instruments that do have teeth, show little or no appetite to bite, as has recently been the case with the difficulties faced by the Security Council," he said.

**In response to questions as to exactly what the U.N. has achieved over three-quarters of a century, Guterres said "at least the Third World War so many people have predicted was avoided.**

<https://www.breitbart.com/politics/2020/06/26/u-n-chief-guterres-calls-for-one-supreme-body-of-global-governance/>

and the present U.N Chief Guterres is of course on that track. He's very communistly minded. So, he says the U.N chief calls for one supreme body of global governance in response to the questions as to exactly what the UN has achieved over three quarters of a century.

Guterres said at least the third world war so many people have predicted was avoided. Yes, it was avoided until now but that doesn't mean that it will be avoided in future, right

**Martin:** continue to be avoided

**Walter:** So do you accept his mindset, do you accept any of these and matt on amazing discoveries gave a little discussion on the philosophy of Guterres. So they can perhaps look at this.

**Martin:** I'll put that link as well

**Walter:** Put that link in there, because it'll give people an idea of where he stands in terms of his thinking he's definitely not king of the north thinking he's king of the south thinking.

**Martin:** And now that's also interesting is if you know the king of the south the U.N. is part of that then anybody that affiliates them with them also becomes part of the king of the south.

**Walter:** Correct...and the United States is of course now totally against this so you have these two aspects.

The screenshot shows a World Economic Forum article. The title is "The COVID-19 recovery can be the vaccine for climate change". The authors listed are Maria Mendiluce (CEO, We Mean Business) and Jose Siri (Senior Lead, Science, Cities, Urbanization, and Health, Our Planet, Our Health (OPOH), Wellcome Trust). The article text discusses the positive environmental benefits of the pandemic, the lack of a pandemic 'game plan' in place for the incoming administration, and the connection between COVID-19 and the climate crisis. A URL is provided at the bottom: <https://www.weforum.org/agenda/2020/06/covid-recovery-climate-and-health-hand-in-hand/>. To the right of the text is a photograph of the India Gate in Delhi, India, with a road leading towards it and a white fence in the foreground.

Now the world economic forum is also very active in this discussion. The Covid 19 recovery can be the vaccine for climate chang. We have to link all of these issues into the story, so they all look disjointed but there's a common theme running through them because there's a mastermind and if you deny that there is a mastermind behind all of this. The dragon himself, satan. If you deny that there is a theme behind the scenes to bring about his agenda then you are denying biblical prophecy.

**Martin:** Yes.

**Walter:** In fact you are denying the entire scriptures.

**Martin:** It's important to remember talking about the king of the north and king of the south. The dragon is behind both of them.

**Walter:** Absolutely

**Martin:** He is the supreme

Walter: He's the one who gives his seat and great authority to the babylonian king who is a type of Christ. He's the one who received the mortal wound and had a resurrection. All power is

given unto him all judgment is given unto him. He's the way of salvation I mean it's a perfect counterfeit of the real Christ.

**Martin:** And if I may and I just put it in blunt terms is the devil is behind all of this.

**Walter:** All of it. So, and he's playing both sides. He is the puppet master.

The screenshot shows a World Economic Forum article from June 9, 2020. The article is titled "The COVID-19 recovery can be the vaccine for climate change" and is written by Maria Mendiluce and Jose Siri. The article discusses the positive environmental benefits of the pandemic and the need for action to shape human existence for generations to come. It also mentions that the Obama administration notably left a 69-page pandemic 'game plan' in place for the incoming administration, to no avail. The article concludes that climate change is set to become the worst crisis of our times and that there are clear connections between COVID-19 and the climate crisis.

**WORLD ECONOMIC FORUM**

09 Jun 2020

**Maria Mendiluce**  
CEO, We Mean Business

**Jose Siri**  
Senior Lead, Science, Cities, Urbanization, and Health,  
Our Planet, Our Health (OPOH), Wellcome Trust

### The COVID-19 recovery can be the vaccine for climate change

- The positive environmental benefits of the pandemic have shown us what is possible.
- Our actions - or inaction - now will shape human existence for generations to come.
- Here's what policy and decision-makers must focus on to build the future we all need.

**COVID-19 was not just a predictable crisis — it was predicted.** An array of official guidelines for pandemic preparedness and response, from the World Health Organization and others, highlights just how seriously the threat was perceived. **In the US, which currently has far more cases and deaths than any other country, the Obama administration notably left a 69-page pandemic 'game plan' in place for the incoming administration, to no avail.** Fictional imaginings of global pandemics, meanwhile, have played out in the popular consciousness for decades. **However, what is most concerning about COVID-19 is not the virus itself, but rather that it may be a harbinger of things to come. Climate change, a quandary of our own making, is set to become the worst crisis of our times.** If we fail to appreciate our collective vulnerability and responsibility to act accordingly, the consequences will shape human lives and civilization for millennia.

**There are clear connections between COVID-19 and the climate crisis.** For starters, climate change increases the likelihood of COVID-type pandemics — through changes in the habitats of disease vectors, for example, or increased inter-species contact resulting from deforestation.

<https://www.weforum.org/agenda/2020/06/covid-recovery-climate-and-health-hand-in-hand/>

Covid-19 was not just a predictable crisis it was predicted the world economic forum says this was going to happen this was going to happen of course it was going to happen especially if it was planned it was going to happen now we're not going to go there that's not our job whether this is a pandemic or a pandemic we leave that to the critics we're not interested in how it came about we're only interested in what are the consequences going to be that is what we are looking at and

**Martin:** As we go on remember the people that associate with the united nations and the world economic forum will form part of the king of the south.

**Walter:** Yes

**Martin:** And that will just make a few things clearer.

**Walter:** And so we'll have this conflict and the Bible is very clear as to which mindset eventually will have the upper hand. In a synthesis though.

**Martin:** Yes

**Walter:** So it'll look different to what we might expect so climate change. Becomes part of the equation. You know I would almost like to say that climate change is the glue for the synthesis

because you have two totally much different mindsets one religious, one secular and somehow the two have to come together. What's going to glue them together? what's going to be a common factor between both of them? Climate Change.

So, if you can get the religio aspect in it and you can get the secular aspect in it then you have a glue. Yes so let's see how they want to do this in the U.S. which currently has far more cases and deaths than any other country.

The Obama in administration notably left a 69-page pandemic “game plan” in place for incoming administration, to no avail. So, this has been planned for a long time. Do you think they were sitting at one table?

**Martin:** Well, it's interesting how they join well in the language that I read here maybe they put the obama administration under the king of the south.

**Walter:** Absolutely, absolutely, however, what is most concerning about covid-19 is not the virus itself but rather that it may be a harbinger of things to come. Climate change, I mean now it's interesting how you link a virus to climate change. Now, the Pope also linked it to climate change because, because of climate change you're going to have all these different viruses, suddenly popping up right.

**Martin:** It's nature having a fit.

**Walter:** Yes, you're having effect correct. A quandary of our own making it's set to become the worst crisis of our times. So again, let's reiterate whether real or perceived is irrelevant what is the consequence so we're not choosing sides.

There are clear connections between covid-19 and the climate crisis. Now, to me personally they are as clear as mud, where is the connection? unless you believe that it is nature having a fit like the Pope said. No, they want you to believe that there is a connection so that they can move from the one aspect to the next aspect.

**WORLD ECONOMIC FORUM** 03 Jun 2020  
**Klaus Schwab**  
Founder and Executive Chairman, World Economic Forum

## Now is the time for a 'great reset'

- We can emerge from this crisis a better world, if we act quickly and jointly, writes Professor Klaus Schwab.
- The changes we have already seen in response to COVID-19 prove that a reset of our economic and social foundations is possible.

COVID-19 lockdowns may be gradually easing, but anxiety about the world's social and economic prospects is only intensifying. There is good reason to worry: a sharp economic downturn has already begun, and we could be facing the worst depression since the 1930s. But, while this outcome is likely, it is not unavoidable.

To achieve a better outcome, the world must act jointly and swiftly to revamp all aspects of our societies and economies, from education to social contracts and working conditions. **Every country, from the United States to China, must participate, and every industry, from oil and gas to tech, must be transformed. In short, we need a “Great Reset” of capitalism.**

**There are many reasons to pursue a Great Reset, but the most urgent is COVID-19.** Having already led to hundreds of thousands of deaths, the pandemic represents one of the worst public-health crises in recent history. **And, with casualties still mounting in many parts of the world, it is far from over.**

**All of this will exacerbate the climate and social crises that were already underway.** Some countries have already used the COVID-19 crisis as an excuse to weaken environmental protections and enforcement. **And frustrations over social ills like rising inequality – US billionaires' combined wealth has increased during the crisis – are intensifying.**

<https://www.weforum.org/agenda/2020/06/covid-recovery-climate-and-health-hand-in-hand/>

Now the world economic forum continues and it says, now is the time for a 'great reset'. Push the reset the world button. Reset the world, reset the world. Now, all sides want to reset. They need a reset. We have to change things. The one side says we have to drain the swamp and reset. The other one says, no. The swamp philosophy is the reset.

**Martin:** Yes

**Walter:** So, we need to have this reset. Both sides want to reset so there will be a reset and it will affect us, right.

**Martin:** Yes

**Walter:** Positively or negatively according to the scriptures

**Martin:** Negatively

**Walter:** Must be, right.

**Martin:** The commandment keeping people

**Walter:** So, the lockdowns are easing and in other places they are increasing again so this thing is not going to go away easily. Every country from the united states to china must participate and every industry from oil and gas to tech must be transformed in short we need a great reset of capitalism.

Now, if you go back in history and you go to the papal encyclicals (Rorum Navarum) They were talking about a great reset then again. So, the great enemy of course was capitalism. In its present form they want a kind of catholic social doctrine which is more in line with the king of the south philosophy.

There are many reasons to pursue a great reset but the most urgent is covid-19. Having already led to hundreds of thousands of deaths, the pandemic represents one of the worst public health crises in recent history. And, with casualties still mounting in many parts of the world, it is far from over. And they're constantly pushing this agenda it's not over.

**Martin:** and second wave

**Walter:** If you think it's going to be over there'll be a second wave, right and if you think that's not going to do it there'll be a more potent one that comes along the line.

All of this will exacerbate the climate and social crisis that we're already underway. Climate again, climate again. They're linking it to climate all the time. They need a glue. Yes, they need a glue. In frustrations of a social ills like rising inequality. I wonder what rising inequality has to do with the climate but it somehow gets pushed in there. You get the whole social doctrine pushed in there but there's no conspiracy, no...U.S. billionaires combined wealth has increased during the crisis - are intensifying. So, the wealth of capitalism

**Martin:** yeah and frustrations over this is intensifying the rich are getting richer and this whole climate thing is getting out of hand.

**Walter:** I think if one more person gets rich we'll have a climate crisis definitely. So, how do they think? how does this world economic forum and the United Nations how do they envisage the great reset? you put together a little video today.

**Martin:** Because sometimes when you read an article like this you read it but you don't actually see what who is the players who's actually yeah he's just involved with this.

**Walter:** Okay, let's have a look at the little video in this regard.

**Video-Klaus Schwab-World Economic Forum** – “The Covid-19 crisis has shown us that our old systems are not fit anymore for the 21st century. Now is the historical moment a time not only to fight severe virus but to shape the system for the need for the post corona era.

**Video-Antonio Guterres-UN** – “The covid-19 pandemic is causing enormous human suffering and economic hardship. A microscopic virus has closed down entire countries and economies in doing so it has exposed the fragility that characterizes much of our world but this fragility is not confined to health systems, runaway climate change and sustainable levels of inequality and the lawlessness of cyberspace are all warning signs that we must heed. The great reset is a welcome recognition that this human tragedy must be a wake-up call as you rightly say. It is imperative that we re-imagine, rebuild, redesign, reinvigorate and rebalance our world.

**Video-Prince Charles** – “The threats posed by this dreadful pandemic came upon us suddenly with very little warning the threat of climate change has been more gradual but it's devastating reality for many people and their livelihoods around the world and it's ever greater potential to disrupt surpasses even that of covid-19. And as we move from rescue to recovery, therefore we have a unique but rapidly shrinking window of opportunity to learn lessons and reset ourselves on a more sustainable path. It is an opportunity we have never had before and may never have a game.”

**Video-Kristalina Georgieva-IMF** – “What is it that would make it so that history would look at this crisis as the great opportunity for reset. Uh, from the perspective of the IMF, uh, what we see is inevitably a very massive injection of fiscal stimulus to help countries deal with this crisis and shift gear for growth to return but it is paramount that this growth leads to a greener, smarter and more fairer world in the future.

**Video-Ajaypal Banga-CEO, Mastercard** – “You know, I, I've been saying for a while that the world's problems fit on three sides of a triangle, that's the prism you should look through. We just talked about them. It's one versus many, man versus nature. And the unfortunate foundation is long-term versus short-term there is not enough money in government or philanthropy to make it possible to deal with the three sides of this triangle. You need private sector capital, private sector ingenuity, private sector technology and private sector capabilities to come to the party.

**Video-Sharan Burrow-International Trade Union Confederation** – “But we must end the short-termism whether it's about investment or our approach to debt which is after all investment in the future.

**Video -Bernard Looney-CEO of BP** – “You know just in closing Adrian. I would say, we need our imagination here. Um, we're seeing today, uh, every day the art of the possible. The possible is being redefined each and every day right now. So, the next time someone tells us that tackling climate change is either too costly or too difficult, I think we need to remind them and remind ourselves of what just is happening right now. So, that's where, that's where we are at. Back to you Adrian.

**Video-Brad Smith-President Of Microsoft** – “Uh, I think we have the opportunity to recognize that data and technology more broadly are indispensable tools to solving almost any of the problems that we confront but I think what we really have the opportunity to do is unite the private sector, use digital technology to better measure scope one,two and three emissions created in the building of products and empower consumers around the world so when they make a choice about which product to purchase they can see what was emitted in terms of the amount of carbon to create that product in the same way that they can read the nutritional content on a label at the grocery store of a food product.

**Video-Kristalina Georgieva-IMF** – “For my institution we lean forward with everything we have towards this more sustainable and more inclusive world more resilient world of tomorrow.

**Video-Klause Schwab** – “And the annual meeting of the world economic forum in January 21 which will serve as a global summit devoted to the great reset. There is no other way we have to live up to the expectations which we have created and we will do so. Thank you very much for joining this important great reset initiative launch.

**Walter:** I think they want to reset. How many times did they repeat that word.

**Martin:** And how do they bring it the whole time back to climate change green and new everything, everything goes back to climate change and this is the big players.

**Walter:** Yes, these are the big role players and you know what it's interesting,public private enterprise. It's the common theme that runs through this, this whole issue,public private enterprise. Now, that's basically the definition of fascism. Government and industry in partnership for community that's fascism and that's the form of government that the jesuits want. Now, there are many things in what these people are saying that the other side is totally opposed to correct and they are going to fight against it with every fiber of their being. We find that those with the religious mindset are not buying into the covid vaccine issue and saying this is a means to reduce world population and we will not be dictated to and have our freedoms taken away and we had Prince Charles, there it was that book the suspense the sustainable prince. I mean he's been on this bandwagon for a very long time and he has this massive economic input as well with his foundation. So all of these role players are moving in a particular direction and you have another group moving in a very opposite direction.

**Martin:** Yes there's this clash actually screwing up.

**Walter:** So is it a north south class.

**Martin:** Definitely

**Walter:** We have again a north south class and uh, people are waiting for a savior to get you out of this. We don't want anything to do with that.

**Martin:** Yes, they're looking for the savior to get you out of the king of the south.

**Walter:** and they give the savior a name Qanon.

**Martin:** yeah

**Walter:** Qanon is going to be the

**Martin:** Q and Qanon are part of the the anonymous people

**Walter:** that don't want this. So, you have Q and there's another role player which I don't think we should get too involved in but that is the king of manner. So who is the king of manner. Who is q, are they, are they real, are there are any possibilities of these saviors. We've discussed this before it's irrelevant, totally irrelevant you have to apply the filter and everything has to be in harmony with that filter that's your bible. So, where are we heading? We are heading towards the synthesis and in the event all nations, all the ideologies will be in opposition to God's people. That's where we're going. So we cannot choose sides.

**Martin:** So if you for instance if the king of the north which we, we know according to Bible will be eventually taking over the king of the south. so if the swamp is drained, you're going to be very happy because the king of the south is being overtaken by the king of the north but still the king of the north is also going to be against God's people.

**Walter:** Exactly, so can you choose sides? No, but if you, if you don't understand the biblical prophecy you will be drawn into either the one ideology or the other and you will take your stand with them and perhaps you will pick up a placard and start marching with these people and in actual fact you're marching against God's people that's amazing. It's a very dangerous thing.

**Martin:** That's why all will be affected

**Walter:** Everybody, everybody has to make a choice and those that are wise says, Daniel will lead many to righteousness. So, obviously this system is not leading towards righteousness you can look at the philosophies of these people from the United Nations and from wherever if you look at their philosophies they are definitely not salvation in Christ alone philosophies just look at Prince Charles for example, he will wear muslim robes, he will be in a christian setting, he is playing to all sides but the bible says there's only one way. There's only one way to salvation so let God's people stand back, look at the theater and make decisions based on scripture.

**Martin:** Exactly, and it's also important to know that it will be the whole time for God's people it will look it's not so hard to see the bad side of the king of the south but it's hard to see the bad side of the king of the north.

**Walter:** The king of the north is is slippery. He's more deceptive. We have to be very careful and particularly since he's going to turn out to be the winner

**Martin:** Yes and he's gonna have like we said in he's gonna infiltrate into...

**Walter:** And the bible says the whole world wandered after the beast. Now that word wandered was with an o that means will adopt the mindset or aspects of the mindset of the king of the north. So, let's just look at the climate change issue because that's the glue.

**thejapantimes** JUN 21, 2020  
ARTICLE HISTORY

### Pope says coronavirus should spark new environmental awareness

The drastic reduction in pollution during coronavirus lockdowns around the world should lead to greater concern for the environment as restrictions are lifted, Pope Francis said on Sunday. At his Sunday address in St. Peter's Square, Francis said the pandemic made many people reflect on their relationship with the environment. The square reopened to the public a month ago and Italy's last travel restrictions were lifted on June 3.

"The lockdown has reduced pollution and revealed once more the beauty of so many places free from traffic and noise. Now, with the resumption of activities, we should all be more responsible for looking after our common home," he said, using his term for the Earth.

The Roman Catholic Church is currently marking the fifth anniversary of Francis' landmark encyclical "Laudato Si" (Praised Be) on the need to protect nature.

In a 225-page manual released on Thursday, the Vatican said Catholics should disinvest from fossil fuel industries and closely monitor companies in sectors such as mining to check if they are damaging the environment.

<https://www.japantimes.co.jp/news/2020/06/21/world/science-health-world/pope-says-coronavirus-spark-new-environmental-awareness/>

The pope says coronavirus should spark new environmental awareness. Now, there you have the spokesman for the king of the north direct because that is the king of the north. The drastic reduction in pollution during coronavirus lockdowns around the world should lead to greater concern for the environment as restrictions are lifted Pope Francis said on Sunday.

In other words they don't really want to lift the restrictions, the restrictions are useful. Why are they so useful? Now, with the resumption of activities, we should all be more responsible for looking after our common home," he said, using his term for the earth.

**Martin:** Once again for the common good.

**Walter:** Yeah, common good. In a 225 page manual released on Thursday, the Vatican said Catholics should disinvest from fossil fuel industries.

It's interesting that the representative of British petroleum was also on the reset Initiative.

And closely monitor companies in sectors such as mining to check if they are damaging the Environment. In other words the reset will greatly curtail many many industries in the world and Donald Trump recently had a speech in which he said what will happen to Texas if we go this route then he mentioned a lot of other states what will happen to them are they just going to be economically trashed how can we go along this road so you have this interesting dichotomy.

The screenshot shows a Guardian article with the following content:

**World has six months to avert climate crisis, says energy expert**  
International Energy Agency chief warns of need to prevent post-lockdown surge in emissions.  
**The world has only six months in which to change the course of the climate crisis and prevent a post-lockdown rebound in greenhouse gas emissions that would overwhelm efforts to stave off climate catastrophe, one of the world's foremost energy experts has warned.** "This year is the last time we have, if we are not to see a [carbon rebound](#)," said Fatih Birol, executive director of the International Energy Agency.  
"The next three years will determine the course of the next 30 years and beyond," Birol told the Guardian. "If we do not [take action] we will surely see a rebound in emissions. If emissions rebound, it is very difficult to see how they will be brought down in future. This is why we are urging governments to have sustainable recovery packages."  
**Investors were also keen to put private sector money into a green recovery, alongside government stimulus spending, said Stephanie Pfeifer, chief executive of the Institutional Investor Group on Climate Change, representing funds and asset managers with \$26tn in assets.** "The IEA has shown [a green recovery] is not only desirable, but economically astute. Investors are fully committed to playing their part in this process."  
<https://www.theguardian.com/environment/2020/jun/18/world-has-six-months-to-avert-climate-crisis-says-energy-expert>

The guardian said, the world has six months to avert climate crisis we better get on with these what's-ups yes because we don't have any time according to this now first it was years then it was 12 years then now it's down to six months so if the last events are rapid I hope they're right because I really want to go home so the world has only six months in which to change the course of the climate crisis and prevent a post-lockdown rebound in greenhouse gas emissions that would overwhelm efforts to stave off climate catastrophe, one of the world's foremost energy experts has warned.

Investors were also keen to put private sector money into green recovery, alongside government stimulus spending, can you see private corporate?

**Martin:** Uh, they have to get alliance everybody in there.

**Walter:** This is exactly what the jesuit economic plan is all about. So, let's have a look at this, here investors were also keen to put private sector money into green recovery alongside government stimulus spending. In other words you have government private enterprise working together that's the jesuit system, that's a form of fascism. Said stephanie pfeiffer chief executive of the institutional investor group on climate change, representing funds and asset managers with 26 trillion dollars in assets. That's amazing so they are geared for this reset.

**Martin:** You remember in the video they said the the CEO of Mastercard said governments do not have enough money they have to get private sector with that amount of and look at what have they got here.

**Walter:** Now, if you go back to the feudal system of the middle ages when the first beast of revelation chapter 13 had control over church and state. It was a feudal system so you had the church leading the way, you had government and then you had the lords and then you had the worker the serf now if you put that into a modern context, if we give the power back to the beast then you will have the church controlling the state you will have the government and you will have the mega private corporations which are the lords the feudal lords of the middle ages and because private enterprise will virtually be wiped out by the system you'll be back to the system of the middle ages where the state and the feudal lords which is the mega private corporations will employ the people and the people will be subject to that hierarchy of power, it's the exact system of the middle ages. We'll be back to square one and now.

**Martin:** Okay, so how do you put this now into the scenario of the king of the north and south eventually eventually the power must be given to the king of the north to the king of the north. so we're going to head in this direction but in some modified form.

The screenshot shows a news article from The Guardian International edition. The article is by Fiona Harvey, an environment correspondent, dated Monday, 15 June 2020 at 15:16 BST. The headline reads: "Covid-19 pandemic is 'fire drill' for effects of climate crisis, says UN official". The sub-headline says: "Lise Kingo says social equality issues must be part of sustainable development agenda". The main text begins with: "The coronavirus pandemic is 'just a fire drill' for what is likely to follow from the climate crisis, and the protests over racial injustice around the world show the need to tie together social equality, environmental sustainability and health, the UN's sustainable business chief has said. She said there were 'very, very clear connections' between the Covid-19 and climate crises, and the Black Lives Matter protests around the world, which she said had helped to reveal deep-seated inequalities and 'endemic and structural racism'. Human rights were 'inseparable' from dealing with climate breakdown, she told the Guardian in an interview. 'This horrible racism [seen in the killing of George Floyd] is about human rights. We have to make sure that we give the social part of the agenda equal focus.'" It continues with: "'We want all chief executives to become social activists – to understand social equality,'" she said. Mark Carney, the former governor of the Bank of England, told the conference that the Covid-19 crisis had shown how urgent it was to tackle global heating. "This is a crisis that will involve the whole world and from which no one can self-isolate," he said." A URL is provided at the bottom: <https://www.theguardian.com/environment/2020/jun/15/covid-19-pandemic-is-fire-drill-for-effects-of-climate-crisis-says-un-official>. To the right of the text is a photograph of Lise Kingo, the UN's sustainable business chief, speaking at a conference with her hands raised.

Yes covid-19 pandemic is a “fire drill” for the effects of climate crisis, says U.N. official. Now, I find this one particularly interesting if this is a “fire drill” then what will be the real thing. The coronavirus pandemic is just a ‘fire drill’ for what is likely to follow from the climate crisis, and the protests over racial injustice around the world show the need to tie together social equality, environmental sustainability and health. How do you get all of those into one pot this is amazing so linked up with climate change you have social equality, you have racial injustice, environmental sustainability and health.

**Martin:** So if you go back to Matthew 24. in this article they bring together Matthew 24.

**Walter:** Absolutely

**Martin:** Ethnos against ethnos, yes the um environment it's the pestilences and the famines and all these things are mentioned in here.

**Walter:** And the the racial injustice the ethnos of ethnos the the economy the nations everything is right in this this is like reading a blueprint for matthew 24.

she said there were “very, very clear connection” between the covid-19, and climate crisis and Black lives matter protests against around the world. Now, can you explain that to me, how does the Black lives matter movement and climate change get linked together? It's this mental gymnastics of a of a very interesting kind.

Human rights were inseparable from dealing with climate breakdown, so they're putting all of this into a package and heading towards a reset. Let's just have a look at a video where the church militant group of the roman catholic church is speaking which is king of the north philosophy right now within the roman catholic church you have the same aspects you have the liberal aspect and you have the conservative aspect so you have the conservative religious reasons as to why things must work like they work and then you have the very secular thinking of some of the others so this conflict is even raging within the church.

**Martin:** Yes, the north and south is in the church interesting that also in the church they want to drain the swamp that..

**Walter:** There's a swamp within the catholic church as well which needs to be

**Martin:** Remember Cardinal Vigono was mentioning that also to trump in his.

**Walter:** Correct, so let's have a look at what they are saying about this issue because it really is a fascinating interplay between king of the north and king of the south philosophy

**Video-Michael J. Matt-Editor, The Remnant** – “How do we explain that on September 24<sup>th</sup>, 2019. President Donald Trump stood on the floor of the united nations general assembly arguably the biggest platform the biggest stage in the world and he announced his intention to stand against the new world order how do we explain this.”

**President. Donald Trump-On U.N. General Assembly** – “If you want freedom take pride in your country. If you want democracy hold on to your sovereignty and if you want peace love your nation. Wise leaders always put the good of their own people and their own country first. The future does not belong to globalists. The future belongs to patriots. The future belongs to sovereign and independent nations.”

**Video-Michael J. Matt-Editor, The Remnant** – “For whatever reason Donald Trump looked him straight in the eye and he said he was going to stand against those who would destroy national sovereignty.”

**President, Donald Trump-On U.N. General Assembly** – “Today i have a message for those open border activists who cloak themselves in the rhetoric of social justice your policies are not just your policies are cruel and evil.”

**Michael J.Matt-Editor, The Remnant** – “For whatever reason Donald Trump looked him straight in the eye and he declared war even on the neoco, neocon war machine that had been destabilizing the entire world under goofballs like George W. Bush.”

**President, Donald Trump** – “And America's goal is not to go with these endless wars, wars that never end.”

**Michael J.Matt-Editor, The Remnant** – “He looked them straight in the eyes at the United Nations Donald Trump did and he blasted socialism.”

**President, Donald Trump** – “One of the most serious challenges our countries face is the specter of socialism. It's the wrecker of nations and destroyer of societies. Socialism and communism are about one thing only,power. For the ruling class today I repeat a message for the world that I have delivered at home. America will never be a socialist country.”

**Michael J.Matt-Editor, The Remnant** – “Donald Trump looked him straight in the eye on the floor of the United Nations and he defended the basic right of all of us to protect our homes and our families and to not need the nanny state new world order.”

**President, Donald Trump** – “There is no circumstance under which the united states will allow international entries to trample on the rights of our citizens including the right to self-defense that is why this year I announced that we will never ratify the U.N. arms trade treaty which would threaten the liberties of law-abiding American citizens. The United States will always uphold our constitutional right to keep and bear arms.

**Michael J.Matt-Editor, The Remnant** – “And then Donald Trump committed the ultimate crime looking the world straight in the eyes he defended the unborn.”

**President, Donald Trump** – “Americans will also never tire of defending innocent life. We are aware that many United Nations projects have attempted to assert a global right to taxpayer-funded abortion on demand right up until the moment of delivery. Global bureaucrats have absolutely no business attacking the sovereignty of nations that wish to protect innocent life. Like many nations here today we in America believe that every child born and unborn is a sacred gift from God.

**Michael J.Matt-Editor, The Remnant** – “Friends how do you explain this I mean this speech Donald Trump rocked the United Nations. It rocked the new world order. The Vatican kicked

into panic mode hosting conferences immediately, warning that Trump threatened the entire world. Remember we played this clip a lot of times let's play it one more time just for old times sake.

**Video-The Vatican** – “The U.S. is a problem. It became a far more significant problem with Donald Trump. He may or may not be president after November but the US became vastly more complicated for the world since 2017.”

**Walter:** Here we have classic interplay between north and south thinking and it's interesting that even within the Roman Catholic church this war is apparently raging. So, you have the two philosophies. The archbishops are divided one of them siding with Trump, the others siding with the so-called new world order so we have the classic dialectic and we have this interplay between forces.

**Martin:** And if we put that filter in game. we are the setting that..

**Walter:** Filter tells me that the power which is the second power will be the one that will enforce the world now the second power which is the United States of America also has both aspects. You have Biden on the one hand, you have Donald Trump on the other so depending which one wins the election it could go either way. Again it is not up to us to choose sides because we are looking at a strategy between north and south. Our objective is to say where do we stand when the synthesis happens. So, we're not predicting how the synthesis will happen. We just say it will happen. What the procedures will be? What the issues are is absolutely irrelevant and what powers they use to achieve it is also irrelevant.

**Martin:** Correct

**Walter:** But I cannot be involved. I have to come out and be separate thus says the Lord and only by separating ourselves and when the Bible speaks about separating. It says separating unto the Commandments of God. That's the issue, that's the bottom line. Let us listen to what Donald Trump said at his Tulsa speech which is also fascinating because we're watching an interplay here and we need to see what both sides are saying without choosing sides. Let's reiterate that Constantly.

**Video-Donald Trump in Tulsa** – “We've spent over two trillion dollars to completely rebuild the unmatched strength and power of the United States Military. They got rid of a lot of bad people that, were there for a long time, sort of like me in Washington draining the swamp. I never knew it was so deep but it's happening, it's happening. I never knew it was so deep, it's deep and thick and a lot of bad characters but you don't hear them talking about covid, covid to be specific covid-19. That name gets further and further away from china as opposed to calling it the chinese virus.

Joe Biden and the democrats want to prosecute Americans for going to church but not for burning a church. They want to crush religious liberty, they don't want religion, silence religious believers indoctrinate your children with hateful and vicious lies about our country. Biden is fully controlled by the fringe of his party. He is their pawn. He doesn't even know where the hell he is, let's face it. He installed socialists Alexandria Ocasio Cortez to be in charge of his

environmental policy and his energy energy you can forget petroleum. How does Oklahoma feel about being petroleum free? not good right.

we will keep America out of foolish stupid ridiculous foreign wars. We will never hesitate to kill America's terrorists enemies. We will launch a new age of American ambition in space and the United States will be the first nation to land on mars, good program. We believe that faith and family not government and bureaucracy are the true American way.

**Walter:** Well that is either the thesis or the antithesis. Time will tell right, yes and we have these two very opposite ideologies now if I had to apply again the biblical filter, the Bible tells us church and state will come together what is he standing for the whole time you hear faith church and state standing together. Now, again I'll reiterate the other side Biden, Nancy Pelosi all of these people are also very staunch Roman Catholics but even within that church the one side is decrying the other side and saying they're wicked etc etc so this is a massive game.

**Martin:** Yeah, it's it's a big thing you mustn't get

**Walter:** sucked in

**Martin:** yes..

**Walter:** You mustn't get...so you mustn't get sucked. You must be an observer. You must put that biblical pair of spectacles on and filter this information the fact of the matter is in the end church and state will combine and they will enact laws that will put God's people into dire straits.

**Martin:** The commandment keeping people

**Walter:** the commandment keeping people and this is where we're heading for because

**Martin:** why I am the whole time stating it like that is because the people that will be in charge of persecuting the commandment keeping people will also be doing it in the name of god.

**Walter:** Correct and that's why it you have to realize it's gonna they they they will say they that god's people and and not only that the bible says that those who kill you will think that they're doing god a favor yes so church and state is the bottom line that is where any synthesis will have to go to we are not predictors of exactly how but we're looking at the scenarios and saying that we do have the conflict between north and south there will be a reset which is the synthesis climate change will be a glue because if you have a religious view of things then you will say we have to keep sunday in order to honor god if you have a secular view you'll say we'll have to keep sunday to give the earth a rest once a week it doesn't matter so how does church and state fit into this issue.

## The Founders Meant to Keep Government Out of the Church, Not God Out of the Government

The 4th of July makes us think of our independence and freedoms. **But when our Founders came up with the First Amendment, were they trying to keep government free from religion? Or religion free from government?**

**These days, the phrase "wall of separation between church and state" has come to mean keeping God or His believers from having a big effect on government and public life. But that's far, far from what the Founding Fathers were thinking of when they were separating church and state.**

They were afraid of what so many of the Old World countries had: a religion established by the state as its one true religion, that would tyrannically rule over the faith and conscience of every citizen.

So what they meant by saying in the First Amendment "Congress shall make no law respecting an establishment of religion" was that the federal government was banned from creating – or "establishing" – a national religion with the national government wedded to it.

"They didn't want to have a national, established Church of America like you have the Church of England, forcing people to believe something that they didn't believe in," said Jerry Newcombe, host of the radio program "Vocal Point".

"He said that the First Amendment had erected a wall of separation that would protect them from any intrusion of the government," Hyatt stated. **"In Jefferson's mind, the wall of separation was a uni-directional wall, put there to keep the government out of the church; not to keep the influence of the church out of the government."**

Here is cbn  
news and this is the christian  
perspective  
is this king of the north philosophy or  
king of the south philosophy  
king of the north king of the north  
the founders meant to keep government  
out of the church  
not god out of the government it's an  
interesting view  
the fourth of july makes us think of our  
independence and freedoms  
but when our founders came up with the  
first amendment  
were they trying to keep government free  
from religion  
or religion free from government that  
who is saying today that we must keep  
government free from religion speaking  
of the south king of the south  
so here is a christian perspective  
or religion free from government these  
days the phrase wall of separation  
between church and state  
has come to me in keeping god or his  
believers from having a big effect on  
government and public life

but that's far far from what the  
founding fathers were thinking  
of when they were separating church and  
state  
i wonder whether that is actually true  
but that's not for us to debate  
in jefferson's mind the wall of  
separation was a unidirectional wall  
put there to keep the government out of  
the church  
not to keep the influence of the church  
out  
of the government so church and state to  
government  
coming together that is king of the  
north perspective  
and this perspective will somehow  
be implemented that's what the bible  
says right  
yes so if church and state must come  
together  
then the religious aspect must  
be prominent right so let's have a look  
at what donald trump has to say  
on this issue just on  
on the evangelical front i've asked  
sarah sanders this mike pompeo they all  
give me the same answer i say  
was president trump put in office for  
such a time as this did god put  
president trump in office for such a  
time as this i never asked you that  
question what do you think  
well i don't know what they said  
specifically they said yes okay because  
i have had  
ben carson said the same thing you know  
ben carson came to me because he ran a  
very effective campaign  
and he did a good job he really did you  
know he came in one of the top  
people and uh he said to me you know  
you're gonna win  
i said ben i'm running against you what  
are you telling me he said  
you're going to win because god put you

here  
for this occasion i said what a lovely  
thing to say that was the first one that  
i heard  
from ben carson and it was during the  
campaign i was running against him and  
he was saying i'm going to win  
he's a very high quality guy he's done a  
great job in the administration  
uh i almost don't even want to think  
about it because you know what  
all i'm going to do is i i hope it's  
true  
all i'm going to do is i'm going to do  
my best and  
part of of what i'm doing my best on is  
for the religious community be  
beyond evangelical evangelicals a very  
big part it's very important to me  
you know we have great support i was so  
honored when franklin graham said that  
his  
father voted for me and that was  
something that billy graham has never  
announced who he was voting for  
but franklin graham said his father  
voted for he went public with it as you  
know  
to me that was a big moment because i  
have such respect for franklin and for  
the family and billy billy graham is  
billy graham is billy graham right but  
when he said that his father  
his last vote was for me and his father  
never announced who he was voting for  
would never talk about it and i just  
hope i get tremendous evangelical  
christian support because and i'm not  
saying this  
is a bragging thing nobody has done more  
for religion than i have look what i've  
done in israel  
which is a big thing with the  
evangelicals  
in many respects it's more important to  
the evangelicals than to jewish people

in this country  
that was amazing wasn't it now here  
again  
whether he is the one who is going to  
implement it  
or not is irrelevant the fact of the  
matter is  
he's making it very prominent that the  
church has an  
important role in the state and even if  
the other side should win  
let's say joe Biden comes in and he wins  
he's also  
a roman catholic and he's according to  
him a dedicated one  
exactly he's a very staunch one and  
nancy Pelosi is a very  
very dedicated roman catholic what they  
could do  
is say we acknowledge that the church  
has an important role  
and bring it in and link it it's a  
possibility  
or donald trump could do it it's  
irrelevant the fact is  
it's going to be linked it's going to  
come in that's what the filter says  
so can i choose sides  
we always come back to this point the  
whole time because  
according to daniel the king of the  
north and the king of the south  
are sitting at one table  
and they are feeding information which  
the bible calls  
lies yes to the world to  
change the mindset and the way of  
thinking  
of humanity let us look again  
at another little video clip which is  
also very interesting because here again  
we're looking at the church militant the  
conservative arm of the roman catholic  
system  
that also claims that there is a swamp  
within the catholic church

that must be drained of which they're  
quite open  
pope francis is part of he needs to be  
drained  
so you have bishop viganò representing  
the role of the conservative  
old-fashioned  
down-to-earth roman catholicism as  
opposed  
to the bishop of new york etc etc  
with very liberal ones so their  
perspective  
is that the way donald trump is speaking  
he's actually almost like a catholic  
and he should actually become a catholic  
yes  
mr president you need to become catholic  
and you need to convert now  
about four years ago church militant  
produced a vortex in the heat of the  
2016  
campaign where we compared donald trump  
to constantine  
constantine of course was the eventual  
sole emperor  
who defeated maxentius at the battle of  
the milvian bridge  
just north of central rome on october  
28th 312  
a.d which happens to be the same week as  
this year's election  
the victory paved the way for  
christianity to be freed from the  
persecutions and eventually become the  
religion of the roman empire  
had maxentius won the battle of the  
milvian bridge  
there's no telling what the fate of the  
church would have been or eventually  
western civilization  
yes the battle was that important  
all everything hung in the balance  
fast forward 1700 years another  
constantine is bearing down on the  
capital of the empire  
and a ferocious force intent on

defending and advancing  
the depravity of its own worldview is  
primed to wipe him out  
like the first constantine he too is  
already emperor  
so to speak and battling another emperor  
a  
modern-day maxentius just as entrenched  
and claiming the same authority  
constantine had come  
to clear the swamp and faced a loathsome  
imperial deep state the most important  
woman in constantine's life the eventual  
saint helena  
had converted to catholicism and would  
later travel to jerusalem and discover  
the true cross  
golgotha and many of the treasures of  
the redemption  
and bring them back and establish them  
in rome  
what brought about the victory was  
constantine corresponding to a grace  
given him  
which he could have accepted or rejected  
he accepted he also converted to  
catholicism personally  
which brings us to our point mr  
president  
convert to the catholic church it's the  
church the only church  
because there is only one church founded  
by christ  
the same christ who promised victory to  
constantine who used his victory  
to restore order to the empire and free  
the church  
which set in motion events which would  
lead to the establishment of western  
civilization  
today western civilization needs  
constantine to reappear  
but constantine needs to accept the  
grace given to him and correspond  
to it first a conversion to catholicism  
which in some ways you have already

begun  
would create a catholic versus catholic  
november match  
up and you would be able to meet biden  
on the milvian bridge  
and wipe him out claimant to claim it  
and call him out for his  
phony catholicism and claim to the faith  
biden has no claim on the faith beyond  
his baptismal certificate  
he's not only a traitor to his country  
as his politics reveal  
but precipitated that treason with first  
treachery against the faith  
second a conversion to catholicism would  
contextualize the election for what it  
really is a great spiritual battle  
the effects of which will be felt long  
after the vote counting has stopped  
we understand our first lady praise the  
rosary  
pray it with her pray with your first  
lady to  
our lady she will guide you to the  
fullness of truth  
for she is the mother of truth and  
desires that all  
come to her divine son now all of this  
might seem a tad strange mr president  
although we suspect not entirely so  
every now and then you say something  
here and there which indicates  
grace is fast at work we firmly believe  
it is this movement of grace which has  
arrayed the powers of hell against you  
and speaking of powers arrayed against  
you you are already  
more catholic than most of the us  
bishops admittedly that's a pretty low  
bar but it's still true  
most importantly mr president you are a  
man of good will  
a man who wants to follow the truth  
wherever it leads  
your past doesn't matter every saint has  
a past and every sinner has a future

church militant has been saying for four  
years now that you won in  
16 because the queen of heaven picked  
you to play an important role in  
revealing and exposing the depth of evil  
in the nation  
you have done that and you need to keep  
doing it  
but at this point the pitch of battle is  
so fierce  
that you now need to return the favor so  
to speak  
and draw down the additional graces  
which come from conversion  
a turning to and embracing of the  
fullness  
of truth you need to ready your soul  
personally and professionally for the  
coming onslaught  
america is the last domino to fall the  
last  
great hope of the world even with all  
her many errors and evils which in a  
second term  
you must set about to undo as best you  
can  
all the violence and blasphemy and  
destruction present in the streets  
are demons feeling or sensing they have  
almost  
achieved complete victory just one more  
final push and the world can be plunged  
into a hellish darkness  
heaven shows you mr president as  
unlikely as many think that  
is heaven shows you now you must choose  
heaven  
you need to receive our blessed lord's  
body and blood in holy communion  
as the possessed crowds kneel to the  
politically correct gods of the modern  
empire  
you must kneel to the queen of heaven  
and her divine son  
embrace the fullness of the faith mr  
president

even if you don't understand it fully  
you don't need to understand it fully  
you need  
need only understand it sufficiently no  
one understands god fully  
constantine didn't yet he was given  
victory so that heaven could use him  
to create a new world a world which has  
fallen to you  
to now preserve the lord of heaven and  
earth  
is also the lord of history and the  
moment of history has now arrived mr  
president  
at 1600 pennsylvania avenue  
put up a statue of saint michael in the  
white house and convert to the catholic  
faith  
then go into battle and behold the power  
of god  
i found that very fascinating yes  
is he describing a battle  
between two ideologies yes did he use  
the word  
push yes i also heard does the bible use  
the word  
push yes now he of course  
is a conservative roman catholic so he  
believes that constantine  
ushered in this great opportunity for  
rome right  
but history tells us that it ushered in  
the dark ages  
yes the worst period that even history  
claims to be  
the dark ages and if that time hadn't  
been shorted and  
shortened no flesh would have survived  
so god raised up the reformation to put  
the bible and jesus christ back into the  
center  
there came persecution for god's  
commandment keeping people  
out of constantine this man says yes he  
was the one who introduced sunday law  
and rome perfected it by making it an

anti-sabbath law as well  
or the roman papacy so you have you have  
this  
fascinating war and it's  
all taking place  
in the context of the king of the north  
and the king of the south  
now they are playing up donald trump as  
the king of the north  
but the real king of the north of course  
is the one who  
is the puppet master behind the scenes  
so it's just interesting to show that  
prophecy is fulfilling before our very  
eyes  
even the the language of the prophecies  
are being fulfilled absolutely  
and it is just astounding to me  
that there are people that are willing  
to say  
that this is mere coincidence  
coincidence apologists  
it's interesting that there's this  
amazing  
so-called prophecy about donald trump  
that he will lead america back to god  
according to a 1983 prophecy now there  
was this man  
in rome who was very religious  
and apparently uh took part in the mass  
on numerous occasions per day  
going from one church to the other to  
partake  
and he had this this vision that donald  
trump was going to be the one who was  
going  
to lead america back to god and he was  
so convinced  
that when the pope opened the holy door  
he actually  
purchased one of those bricks the  
commemorative bricks and he had donald  
trump's name  
placed upon it to sort of  
put the prayers for you for the world  
behind donald trump so that this could

actually happen  
long long before he became president  
fascinating story so the world  
is being prepared for this idea  
that america will go back to god  
and well the bible prophecy tells us  
that they will do that but it will be  
the wrong god yes it will be  
the wrong one so let's look at a video  
at the of this which uh is a short  
summary i  
short you shortened the try excellent  
dr curran said that in the 1980s he was  
talking  
to tom zimmer and tom zimmer said to him  
claudine there's a man right now  
who i believe in the future is going to  
lead  
america back to god and tom zimmer said  
the man who's going to in the future  
lead our country back to god is donald j  
trump and dr curran said  
you mean the new york playboy like this  
is the guy  
and tom zimmer said believe me i have a  
premonition  
that that this is the man who's going to  
do it in the future  
tom zimmer in the 1980s  
donated a brick to be put in the holy  
door of the vatican that said  
donald j trump and he did that  
because he wanted those masses in the  
vatican to be said for him  
because he knew that in the future this  
man  
was going to be a great leader of  
america and bring  
americans back to god and while father  
capa verde in 2017  
already believed that the prophecy of  
tom zimmer was fulfilled  
in president trump because melania trump  
led a huge public meeting by praying the  
lord's prayer  
think how much more we've seen trump

bringing america back to god now  
there's no one better to describe that  
than the former apostolic nuncio that is  
papal representative to the united  
states of america  
archbishop maria vegano  
at lifesight we were privileged to be  
asked by archbishop vegano to publish  
his open letter to president trump  
and when the president himself retweeted  
it and spoke of his thanks and  
admiration for archbishop vegano  
it was tremendous it is in fact  
inside archbishop vegano's letter to the  
president  
that the fulfillment of that 1983  
prophecy of tom zimmer  
can be seen even more clearly  
tom zimmer was real and saintly  
and he did make that prophecy about  
president trump  
and if it has at least in part  
been fulfilled already maybe there's  
more to come  
maybe with tom's intercession for  
america his homeland and for president  
trump  
we'll see the president do even more to  
bring america  
back to god are we living in fascinating  
times definitely  
have we ever seen so many events  
culminating  
that lead to a fulfillment of biblical  
prophecy  
and i must say the last movements or  
the last few weeks these movements have  
been rapid once  
we can't even keep up it's so rapid by  
the time  
we air this there will be it's already  
old news it's already old news and we  
hear it almost immediately

## Prayer for The United States of America

Composed by His Excellency

Archbishop Carlo Maria Viganò

9 July 2020

<https://taylormarshall.com/vigano>

Almighty and Eternal God, King of Kings and Lord of Lords: graciously turn your gaze to us who invoke You with confidence.

Bless us, citizens of the United States of America; grant peace and prosperity to our Nation;

**illuminate those who govern us so that they may commit themselves to the common good, in respect for Your holy Law.**

**Protect those who, defending the inviolable principles of the Natural Law and Your Commandments, must face the repeated assaults of the Enemy of the human race.**

Keep in the hearts of Your children courage for the truth, love for virtue and perseverance in the midst of trials.

**Make our families grow in the example that Our Lord has given us, together with His Most Holy Mother and Saint Joseph in the home of Nazareth;** give to our fathers and mothers the gift of Strength, to educate wisely the children with which you have blessed them.

Give courage to those who, in spiritual combat, fight the good fight as soldiers of Christ against the furious forces of the children of darkness.

**Keep each one of us, O Lord, in your Most Sacred Heart, and above all He whom Your Providence has placed at the head of our Nation.**

**Bless the President of the United States of America, so that aware of his responsibility and his duties, he may be a knight of justice, a defender of the oppressed, a firm bulwark against Your enemies, and a proud supporter of the children of light.**

**Place the United States of America and the whole world under the mantle of the Queen of Victories, our Unconquered Leader in battle, the Immaculate Conception. It is thanks to her, and through your Mercy, that the hymn of praise rises to you, O Lord, from the children whom you have redeemed in the Most Precious Blood of Our Lord Jesus Christ. Amen.**

so then in 9th of July 2020

the archbishop viganò wrote a prayer

for the united states of america and

it's an amazing prayer we don't have to

read the whole thing

and people can look it up for themselves

but he's asking for a blessing

illuminate those who

govern us that they may commit

themselves to the common good

in respect for your holy law now this is

a catholic archbishop speaking

what law is he speaking about definitely

the church's laws

didn't we read the doctrine of the

serpent yes

didn't we see that they changed the

commandments

i just want to on that point they didn't

officially change the commandments in a

bible and brought out a bible

no it's in the catechism and the

catechism they change it

and they follow their tradition in the

catechism category

not the bible no that's just to clarify

that because a lot of people ask

they can't find the bible where they've

changed the commandments  
they don't change them in the command  
they don't change them in the bible they  
change them in the catechism  
so in other words they're saying that's  
what the bible says we don't care this  
is what we teach  
the church is above the bible that's  
right  
and we dealt with that in the last  
what's up  
so protect those who defending  
the inviolable principles of natural law  
sounds like is that the commandments of  
god or is that the commandments  
according to the serpent yes  
and your commandments must face the  
repeated assaults of the  
enemy of the human race  
make our families grow in the example  
that our lord has given us together with  
his most holy mother and  
saint joseph in the home of nazareth  
now what did we discuss there in the  
doctrine of the serpent do you see how  
important it is that we  
build a structure based on the bible  
or else even the elect will be received  
deceived where  
is the most holy mother mary at the  
moment  
and joseph they're sleeping sleeping  
they have no more  
activity whatsoever on this earth in the  
previous video  
we heard that tom zimmer must intercede  
for trump or for the country yes  
but he's also in the grave sleeping  
absolutely  
keep each one of us oh lord in your most  
sacred heart  
sacred heart worship is from pagan  
origins by the way  
and above all he whom your providence  
has placed at the head of our nation  
bless the president of the united states

of america  
so that aware of his responsibilities  
and his duties he may be  
a knight of justice  
that's fascinating a defender of the  
oppressed a firm  
bulwark against your enemies and a proud  
supporter of the children of light  
donald trump of course has a jesuit  
education  
fordham university place the united  
states of america and the whole world  
under the mantle of the queen of  
victories  
our unconquered leader in battle the  
immaculate conception  
is this about jesus christ or is this  
about another power  
yes another power and as we discussed  
last time the immaculate conception  
means that  
mary was conceived without sin  
so you know what if you if you're  
logical about this they say that she had  
to be conceived without sin so that  
the redeemer could be conceived without  
sin  
then how could she be conceived without  
sin if her parents were not conceived  
without sin and how can they be without  
sin you can take it all the way back  
right  
it becomes a totally ridiculous doctrine  
so anyway this is the kind of prayer  
that is going out for  
donald trump yeah and what make it what  
makes it also very dangerous  
is if you go back to the episode where  
we  
discussed his open letter that open  
letter  
has very similar sentiments to what the  
evangelicals have  
yes so it's so  
close intertwined so it's the the beast  
and the false prophet on the same side

of the issue  
yes they're all babylonian protestantism  
joining hands now just for interest sake  
we have something else  
thrown into the the melting pot yes

**POLITICO** By RISHIKA DUGYALA  
07/05/2020 08:34 AM EDT

## Kanye West says he's running for president

Kanye West tweeted Saturday night that he wants to run for president in 2020 — four months before the election and apparently without having filed with the Federal Election Commission or created a campaign committee.

**“We must now realize the promise of America by trusting God, unifying our vision and building our future. I am running for president of the United States,”** the 43-year-old musician [wrote](#) on Independence Day, using the hashtag “2020 vision.”

**West has an upcoming album, "God's Country," and its first single, "Wash Us in the Blood," was released this week.** Gap Inc. recently said it entered into a [10-year deal](#) with West for a Yeezy line of clothing — sending the retailer’s shares soaring 42 percent. Days later, Kardashian West [sold 20 percent](#) of KKW Beauty to Coty Inc., the owner of Max Factor and Covergirl, valuing her business at \$1 billion.

<https://www.politico.com/news/2020/07/05/kanye-west-says-running-president-2020-348903>

Subscribe

and you have kanye west saying that he's  
going to run for president  
now he used to be a  
trump fan now he says he's no longer a  
trump fan  
but he's the one who converted from a  
situation where he claimed that he was a  
god  
to a evangelical position  
where he propagates sunday keeping yes  
very staunchly so here you have another  
man  
who will play a role in this  
election and maybe  
he won't choose the trump side or the  
other side he'll be somewhere in the  
middle but he'll be standing  
for a religious principle and  
specifically for the sunday issue  
exactly and this famous song where he  
speaks about chick-fil-a  
where he mentioned it basically just

because they propagate sunday  
and close their shops on sunday so we  
have  
this in the mix and with him running  
you've got at least two already pushing  
for the  
religio political side and another  
interesting point  
what if in the end  
when he loses or wins  
doesn't really matter as we always say  
he has to give  
his uh authority to someone right  
he'll choose sides in the end  
but what is he taking with him he's  
taking  
a chunk of youth and their thinking with  
him and then  
when he supports one side or the other  
that mindset is transferred into that as  
well  
everything is playing up in  
the prophetic scenario let's just look  
at  
what he is saying we must now realize  
the promise of america by trusting god  
unifying our vision and building our  
future this sounds like a glue right  
unification i'm running for president of  
the united states  
west has an upcoming album god's country  
is this king of the north or king of the  
south philosophy  
king of the north king of the north  
and its first single wash us  
in the blood was released this week  
i find it very interesting that the us  
is capitalizing  
very interesting i find that very  
interesting ye shall be as gods  
yes and that used to be his philosophy  
right  
he made no bones about saying that he  
was god that he was another god on earth  
and the roman catholic papacy also  
capitalizes the us

in its in its documents  
so very very interesting in the in a  
previous episode of what's a profit we  
did we already showed  
a lot of kanye west's philosophy and how  
the papacy  
are very supportive  
absolutely and the catholic priest made  
a prediction that he was going to go to  
the vatican  
so kanye west on planned parenthood  
is a tool of white supremacists  
so now you have again the interplay  
between ethnos and aetnas coming in  
and these are all biblical issues which  
the bible says will be prominent at the  
end of time  
they are being presented to us on a  
platter  
and there are people that are saying  
we're not seeing fulfillment of prophecy  
every single one that you've  
discussed now goes back to matthew 24.  
absolutely and

July 8, 2020

## Kanye West: Planned Parenthood is a tool of 'white supremacists'

Despite admitting he has never voted in his life, Kanye West says he is running for president in 2020. He has given an interview to *Forbes* about his newfound political views, which include opposition to Planned Parenthood and abortion, support for school prayer, and hesitancy about a coronavirus vaccine.

**"So when they say the way we're going to fix [COVID] is with a vaccine, I'm extremely cautious," said West. "That's the mark of the beast. They want to put chips inside of us, they want to do all kinds of things, to make it where we can't cross the gates of heaven. I'm sorry when I say they, the humans that have the Devil inside them. And the sad thing is that, the saddest thing is that we all won't make it to heaven, that there'll be some of us that do not make it."**

**Reinstate in God's state, in God's country, the fear and love of God in all schools and organizations and you chill the fear and love of everything else,** so that was a plan by the Devil to have our kids committing suicide at an all-time high by removing God to have murders in Chicago at an all-time high because the human beings working for **the Devil removed God and prayer from the schools.** That means more drugs, more murders, more suicide.

<https://www.lifesitenews.com/news/kanye-west-planned-parenthood-is-a-tool-of-white-supremacists>

he writes here so when  
they say

the way we're going to fix covet is with  
a vaccine  
i'm extremely cautious said west  
that's the mark of the beast  
this is interesting stuff  
they want to put chips inside of us they  
want to do  
all kinds of things to make it where we  
can't  
cross the gates of heaven so here is the  
here's the bottom line  
this man is saying the chip is the mark  
of the beast  
at the same time is propagating sunday  
which is the real mark of the beast  
because the beast has to define what its  
mark is right  
and the beast catholicism had says the  
mark of our ecclesiastical power is that  
we have changed the sabbath to the  
sunday it's a question of authority  
so here is the possibility for the whole  
evangelical world  
to be sucked into this philosophy even  
more  
avoiding the one and jumping into the  
fire  
by accepting the real mark of the beast  
by trying to avoid the false mark of the  
beast  
the devil is very clever he's cut all  
his bases covered  
so they want this chip inside of us they  
want us to do  
all kinds of things to make it where  
we can't cross the gates of heaven  
so this is babylonian philosophy  
at its best reinstate  
in god's state in god's country  
the fear and love of god in all schools  
and organizations  
and you chill the fear and love of  
everything else  
so that was the plan by the devil to  
have our kids committing suicide at an  
all-time

high by removing god to have murders in  
chicago  
at an all-time high because the human  
beings working for the devil remove god  
and prayer from our schools this  
is classic king of the north  
philosophies  
so he's he wants he's talking the talk  
that evangelicals and king of the north  
people want to hear  
that's what they want to hear and he has  
the ear of the youth  
yes so that's where  
the power play is taking place we must  
also realize  
it's not a small  
guy this kanye west i mean just this  
wife  
has got 175 million followers on twitter  
that's amazing this is not he's a  
billionaire also  
so this is interesting that happenings  
and first i showed him with donald trump  
and supporting donald trump  
now of course he has to distance himself  
a little because he wants to run for  
president  
but nothing happens on the stage of  
history  
that is not planned so  
when the king of the north and the king  
of the south sit at the table  
according to daniel they are planning  
and what are they planning what the  
biblical filter tells us they will be  
planning  
so to sum up we have  
the entire mix in this  
bowl and we have  
a very strong push for the king of the  
north philosophy to come  
through we have kanye west  
who is playing part  
or taking the side of the king of the  
north you have this very  
interesting racial aspect that is coming

into the issue  
which we will discuss in some more  
detail  
black lives matter and all of those  
issues  
and he wants to reinstate god  
wants to reinstate the worship of god  
now remember he's the man who is pushing  
the sunday movement

**CRISIS**

Catholic Laity

JUNE 17, 2020

## Bring Back the Blue Laws

CASEY CHALK

<https://www.crisismagazine.com/2020/bring-back-the-blue-laws>

*In the United States on the seventh day of the week, trade and industry seem suspended throughout the nation; all noise ceases. A deep peace, or rather a sort of solemn contemplation, takes its place. The soul regains its own domain and devotes itself to meditation.*

**Alexis de Tocqueville wrote these words** in his 1835 masterpiece of political and social analysis, *Democracy in America*. During America's finally-abating coronavirus quarantine, our nation, at least outwardly, seemed to have gained a more noiseless, contemplative, revivifying spirit. Now, in the terrible wake of murder, protests turned arsonous riots, and looting, not so much. **Nevertheless, Americans in those early quarantine days—after the haze of their Netflix-binge had evaporated—woke up with a surprised appreciation for what earlier generations had considered normal: Sunday laws, otherwise known as blue laws. As America returns to normality, we should consider these laws and their manifold benefits afresh.**

Subscribe

and remember in a previous one we  
discussed  
this article where they said bring back  
the blue laws  
this was crisis magazine a voice for the  
faithful catholic laity  
where they discussed the vision  
of the old days where sunday was part of  
the  
establishment in the united states and  
they want  
america to return to normality and bring  
back these  
laws so that the world can keep sunday  
this is what  
kanye west is standing here and his wife  
kim kardashian

and the children were baptized into the  
orthodox church  
last year fascinating so we're getting  
them all  
into this religious political  
mindset and bring god back  
so that reminds me again of revelation  
chapter 12 verse 17

Rev 12:17 And the dragon was wrath with the woman, and went to  
make war with the remnant of her seed, which keep the  
commandments of God, and have the testimony of Jesus Christ.

i believe that the stage is set for this  
final conflict  
and the dragon was wrath with the woman  
the church  
and went to make war with the remnant of  
a seed  
the last church on earth and the  
criteria  
which keep the commandments of god and  
have the testimony of jesus christ we've  
discussed this verse  
many many times so  
after the conflict between the king of  
the north and the king of the south  
which will result in  
major turmoil on this planet  
a time of trouble which is  
unheard of and unbelievable

within the scenario the synthesis  
will lead to this final conflict that is  
where it's heading  
yes and we are observers that's it  
that's it using that bible we're not  
going to choose sides  
we are observers this is where it's  
heading  
this final conflict and when that final  
conflict comes against  
those who keep the commandments of god  
and have  
the testimony of jesus christ  
then people will have to make a choice  
and god's people will be shaken we've  
discussed the shaking yes  
and there will be a people that will  
stand by the bible  
and its principles and by the government  
of god though the heavens fall  
and that have the testimony of jesus  
and accept the righteousness of christ  
rather than the mark of the beast  
and these issues are what the bible says  
will happen  
and this is what we see unfolding before  
our eyes  
now next time i think we should discuss  
the further unfolding of the ethnos  
versus ethnos and  
all of these issues that are coming into  
play  
because the final stage that since  
synthesis synthesis and the final  
conflict  
has to be in harmony with the prophecy  
and also in harmony with matthew 24  
all of these things must come together  
and this  
is what we are seeing in the world let's  
close in prayer  
heavenly father we are seeing the  
unfolding  
of prophecy before our eyes and lord  
you have admonished your people to come  
out

and be separate not to be part of these  
conglomerations that are bent on  
destroying your truth  
help us to make our stand upon thus  
says the lord in jesus name amen
