## IS OIL A FOSSIL FUEL?

Oil is not a fossil fuel from the flood. The Bible states before the flood that oil existed and even mentions which lands had it. Make thee an ark of gopher wood; rooms shalt thou make in the ark, and shalt pitch it within and without with pitch. Genesis [6:14](#) KJV. Pitch is oil! Noah had to use it for the Ark proving oil was here before the flood.

## Our Attitude in Regard to Politics – Councils For The Church p315.5

The Lord would have His people bury political questions. On these themes silence is eloquence. Christ calls upon His followers to come into unity on the pure gospel principles which are plainly revealed in the word of God. We cannot with safety vote for political parties; for we do not know whom we are voting for. We cannot with safety take part in any political scheme.

Those who are Christians indeed will be branches of the true vine, and will bear the same fruit as the vine. They will act in harmony, in Christian fellowship. They will not wear political badges, but the badge of Christ.

What are we to do, then?—Let political questions alone.

There is a large vineyard to be cultivated; but while Christians are to work among unbelievers, they are not to appear like worldlings. They are not to spend their time talking politics or acting politics; for by so doing they give the enemy opportunity to come in and cause variance and discord.

God's children are to separate themselves from politics, from any alliance with unbelievers. Do not take part in political strife. Separate from the world, and refrain from bringing into the church or school ideas that will lead to contention and disorder. Dissension is the moral poison taken into the system by human beings who are selfish. **Gospel Workers, 391-395**

Can you please explain what is the difference between imputed and imparted Justification?

## The Sign of Jonah?

### Matthew 12:38-42

Mat 12:38 Then certain of the scribes and of the Pharisees answered, saying, Master, we would see a sign from thee.

Mat 12:39 But he answered and said unto them, An evil and adulterous generation seeketh after a sign; and there shall no sign be given to it, but the sign of the prophet Jonas:

Mat 12:40 For as Jonas was three days and three nights in the whale's belly; so shall the Son of man be three days and three nights in the heart of the earth.

Mat 12:41 The men of Nineveh shall rise in judgment with this generation, and shall condemn it: because they repented at the preaching of Jonas; and, behold, a greater than Jonas is here.

Mat 12:42 The queen of the south shall rise up in the judgment with this generation, and shall condemn it: for she came from the uttermost parts of the earth to hear the wisdom of Solomon; and, behold, a greater than Solomon is here.

## Will There Be Future Prophets with Prophetic Light?

### Joel 2:28–32

Joel 2:28 And it shall come to pass afterward, that I will pour out my spirit upon all flesh; and your sons and your daughters shall prophesy, your old men shall dream dreams, your young men shall see visions:

Joel 2:29 And also upon the servants and upon the handmaids in those days will I pour out my spirit.

Joel 2:30 And I will shew wonders in the heavens and in the earth, blood, and fire, and pillars of smoke.

Joel 2:31 The sun shall be turned into darkness, and the moon into blood, before the great and the terrible day of the LORD come.

Joel 2:32 And it shall come to pass, that whosoever shall call on the name of the LORD shall be delivered: for in mount Zion and in Jerusalem shall be deliverance, as the LORD hath said, and in the remnant whom the LORD shall call.

## Letter 43, 1887

My brother, our work is to teach the third angel's message... Any kind of theory or hobby that Satan can lead the minds of men to dwell upon, he will draw their attention to, so that they shall not be engaged in giving the solemn message for this time. Do not, my brother, become entangled with ideas that have no connection with the work for this time. It is better to be teaching the truth as it is in Jesus. Better to be seeking for true godliness, heart holiness, freedom from all selfishness, freedom from all envies and jealousies.

**It is better to pray and humble the soul before God and let the world, round or flat, be just as God has made it.** Try most earnestly by faithful continuance in well-doing to seek for a clear title in the inheritance in the earth made new. Better lead the flock of God to drink at the higher streams; better by precept and example seek God while He may be found. Call upon Him while He is near. There is a revival needed in the church. When the teachers are drinking fresh draughts from the well of Bethlehem, then they can lead the people to the living stream. My soul is weighed down with the burden of the condition of things in New York. May the Lord raise up helpers, men whom He can teach, humble men whom He can lead to bear a clear, sharp testimony in faith. God help you to seek His face, to walk carefully, to put self out of sight, and exalt Jesus... This is his great need at the present time... **Whether the world is round or flat will not save a soul, but whether men believe and obey means everything.**

## Ms 145, 1904

I have had matters presented to me to give to our people. An urgent request came to me from a man who desired to discuss with me in regard to the round world, to him a very important matter. My answer was, I have a message to this people in regard to the life they must live in this world, to prepare them for future life which measures with the life of God. **We have nought to do with the question whether this world is round or flat. [The important thing] is to serve God with full purpose of a renewed heart, sanctified and made holy by the cleansing blood of Jesus Christ.**

Soft rock Phosphate (Langfos)

Calcitic lime/Dolomite lime

Volcanic dust

Granite dust

## Soil mineral additions

Rock fertilisers are added at double the commercial quantities. The key minerals to add to soil are Limestone (calcium carbonate), rock phosphate and greenstone or mica rich granite dust (potassium).

Add green manures with your mineral fertilizers and rock powders to make them more effective. Remember, however, that it is also better to under-fertilize than to supply too much of one mineral.

Bacteria in the soil produce acids that make the minerals in the soil available for plants. Freeing these minerals from the soil is crucial to healthy plants, so only use mineral fertilizers that will keep the bacteria happy.

Organic matter improves the cation exchange capacity (CEC) of the soil. The CEC is the ability of the soil to attract cation elements, which are minerals such as calcium and iron that plants can use for nutrition.

# Organic Compost

## Compost

Compost is the heart and soul of organic farming.

Composting works best in wooden bins, wire bins, or straw bales. Bales of straw become next years' compost. In fact, straw heaps often don't even need to be turned.

### Wire composter Straw Bale Composter

#### Setting up

1. Loosen the ground where you will place the compost pile.
2. Make your compost pile 2 metres high with concave top. Alternate

between

layers of soil, layers of straw, and layers of weeds.

Weeds such as stinging nettle, dandelions, horsetails, and thistles are great to use in composting. Alfalfa does best around a pH level of 7, and is the best green material for composting.

- a. Place straw at 10 cm deep
- b. Add a green layer. Use up to 15 cm of branches, or around 3 cm of compact greens such as grass cuttings.
- c. Sprinkle layers of soil on each green layer (to add soil bacteria), but not more than 1/3 must be soil.
- d. Repeat.

Wire composter

Straw Bale Composter

### Compost layers

1. Start with at least six layers, and add more layers as the heap settles. Always add a soil layer on top of any kitchen waste.
2. Add new layers every few days.
3. When it no longer settles and you have reached 1.2 m, add a final layer of straw and put a tarp cover on top.

# Heirloom seeds
